MADame BUTTERFLY—(New.) Is Hill's glorified sport of Ophelia. Seen and admired by thousands. All the color tones of Ophelia are intensified, making it a harmony of bright pink, apricot and gold. Ophelia ranks at the top in popularity and Madame Butterfly will surpass it. It averages more petals to the bloom; it produces more bloom to the plant because it makes more branches, every one carrying a bud. The tight buds are a lovely shade of Indian oak, yellow at the base; they are unique for corsesages and for low table decorations; the opening flowers are perfect in form and texture, clear and brilliant in color and of delicious fragrance. 40 cents each.

RED RADIANCE—All who know that grand Rose Radiance will welcome this red form of that great favorite. Radiance is a Rose that does well everywhere, a fine grower and free bloomer, and no prettier pink Rose grown. Red Radiance is its exact counterpart except that the color is a rich deep red. 25c each.

WHITE MAMAN COCHET (No Finer Rose Than This)—This Rose attracted our attention from the very first time we ever saw it. It is of the largest size, and as you will notice, the flower is built up, or rounded, and very double. The color is a pure snow-white. Sometimes outdoors it is tinged pink, which only adds to its great beauty. No Rose surpasses it in vigorous growth and in the immense size of its buds and flowers—indeed, nothing in the Tea family approaches it in size. Deliciously fragrant. 25 cents each.

RADIANCE—A brilliant rosy-carmine, displaying beautiful rich and opaline-pink tints in the open flower. 20 cents each.

PRESIDENT TAFT—It is without question the most remarkable of all pink Roses. It has a shining, intense, deep pink color possessed by no other Rose. 20 cents each.

ALEXANDER HILL GRAY—Its color is a solid deep yellow throughout. 20 cents each.

The Washington Set of Five Dahlias
COSTING $1.25, FOR $1.00.

SYLVIA (or Dolly)—Flowers four to six inches in diameter; of fine form and full to the center, which is white, shaded to soft pink on the outer petals. In freedom of bloom next to the Countess of Lonsdale. A magnificent Dahlia. Each, 25c.

MARIGOLD—As a golden-yellow is unsurpassed, both as to size and color. A monster flower. Each 20c.

WHAT OTHERS SAY

Johnston, S. Car.
Dear Miss Baines:
I have been ordering flowers for nineteen years, but have never received a package in such perfect condition as the Begonias are, not even bruised. The Geraniums look as fresh as if I had just taken them from a pot. I am glad to tell you this for I feel that too often we withhold a word of encouragement that would make easier life’s burdens.
MRS. W. J. H.
Hartford, Kan.

Ella V. Baines, Springfield, Ohio.
Dear Madam:—I never have had finer Roses come to me than you sent this spring. They were so well packed and fresh when received. All are doing well so far. Thank you. Very truly yours.
MRS. R. D. C.
Sta, B. Rt. 1, Columbus, Ohio.

Miss Elin V. Baines.
The Gem Collection of Roses received from you in March is a marvel. The three Roses each bear a large bud now, and their strong growth is surely gratifying. In size they compare favorably with Roses costing 25, 30 and 35 cents.
W. B.
New Orleans, La.

Miss Baines:
I received my plants that you sent me yesterday and must say I was more than thankful to you. The plants are just grand. I don’t know how to thank you, you sent me more than I expected. Do I owe you any more money? Write and let me know, and I will send it to you. You will by so doing oblige me.
L. C.

Fort Worth, Texas.
Miss Elin V. Baines, Springfield, Ohio.
Dear Madam—I desire to express to you my appreciation of the splendid quality of the “Lily of the Valley” you sent me. Thanks to the splendid packing. The pips arrived in splendid condition and were planted at once, and after only six weeks they are a mass of beautiful blossoms, every pip sending up from two to five spikes of beautiful blossoms, and are the admiration of all our visitors.
I feel repaid many times over for the small trouble and expense incurred in this case and will remember where to order again when I wish such satisfactory results.
Again thanking you, I am Yours very truly,
T. S. H.
Rison, Ark.

Ella V. Baines:
Received your four little Roses and they are growing nicely, also the four Lilacs.” Other Roses of yours last year are doing splendid, and the Killarney and Bessie Brown I got from you a few years ago are great ornaments in this country. Your little Roses have splendid roots and I have not had one to die.
B. B.
Fresnillo, Zac., Mexico.

Miss Elin V. Baines, Springfield, Ohio.
My Dear Miss Baines:—I want to tell you about the order of flowers and bulbs you sent to me in December. I have never received plants packed so beautifully as those were, they came through in perfect condition and all had started new leaves. The Lilacs had big, fat leaf buds on them, and the nice part of it is, they didn’t dry off when I put them in the ground, but have just kept on growing. The Little “Baby” Roses are in full leaf now. I sure appreciate your care in packing them for it is such a long trip I seldom receive plants in good shape even from San Antonio, Texas. They came through in extremely short time for a package; they were only ten days. Thanking you again, I am
Very sincerely,
MRS. JOHN S. B.

THE CREAM OF THE NEW ROSES

We here offer what is good in the new Tea and Hybrid Tea Roses. To have what is good you must try these Roses. They are the best that England, France, Ireland, Italy, Holland and America can produce.

CHARLES K. DOUGLAS (H. T.)—Bud large, long-pointed; flower large, full, double, sweet fragrance; color, intense flaming scarlet, flushed, bright velvety crimson. Foliage, dark green; disease resistant, vigorous, upright grower, produces an abundance of blooms from June to October. 50 cents each. No two-year to offer.

COLUMBIA (H. T.)—This is a new American Rose, grown by the famous florist Earl G. Hill. It is a very vigorous grower of a true pink shade, deepening as it opens to glowing pink. A peculiarity of this variety is that the shades all become more intense until the full maturity of the open flower is reached, and this color is enduring.

COLONEL OSWALD FITZGERALD (H. T.)—A brilliant Rose. Its blood-red velvety crimson beautifully finished blooms are produced in great profusion on erect stems; branching pure tea perfume. We have no hesitation whatsoever in describing this variety as excellent. Named in remembrance of Colonel Oswald Fitzgerald—a lover of roses—who perished with his chief, Lord Kitchener. 50 cents each. No two-year to offer.

CORNELIA—Ophelia X. Mrs. Aaron Ward. A splendid cross between these two well-known Roses. Flowers are medium to large size and very double. The bud is a beautiful salmon-pink. In the half expanded and full flowers the outer petals are light flesh, with the center a bright Malmaison pink; base of petals bright orange. A strong, vigorous grower with good stem and foliage.

CRIMSON QUEEN (H. T.)—A very strong, upright grower, flower large and full. Color a rich bright velvety crimson. A grand garden Rose, as it is always in bloom.

CRUSADER—(New). A big, strong growing variety, robust and rugged in every characteristic. The growth is heavy and the flower stem strong and heavy. It is free flowering and the blooms are big and double and in color a rich velvety crimson. A free flowering Red Rose that is a wonder. 40 cents. No two-year to offer.

EDEL (H. T.)—Type, Florence Forrester; bud, very large; flower, very large, double, well built, stately, opens well in all weather; sweet fragrance. Color, white, with the faintest ivory shading toward base, passing to pure white. Foliage, bold and distinct; very vigorous grower; free bloomer. 50 cents each. No two-year to offer.

FLORENCE FORRESTER (H. T.)—Clear snow-white with a lemon tinge; as the flowers age they become a pure white; the blooms are even larger than Paul Neyron. Its habit is absolutely perfect, and the freedom with which it flowers is marvelous. We consider this Rose the grandest of all whites for bedding. For size and substance has no equal among Hybrid Teas. Is very sweetly perfumed. Gold medal, National Rose Society.

FRANCIS SCOTT KEY (H. T.)—It is very fitting that such a fine new Rose should be honored with the name of the author of the "Star Spangled Banner," and also that it should hail from Baltimore, one of whose forts was being assailed when the inspiration came to the author to write our national anthem. The flowers are from large to very large, with sixty or more petals opening to a high center. The color is a magnificent deep red rose. Wherever it has been staged this Rose has swept all competitors from the boards and secured every prize it has entered for. Grand for the garden.
THE CREAM OF THE NEW ROSES—Continued

FRANK W. DUNLOP—(New.) Did you see it at the International Flower Show at New York the past spring? Its record at the exhibition, winning silver medal for the best new pink Rose, gold sweepstakes medal for the best seedling in the show. Frank W. Dunlop was the finest flower in the exhibition. Claimed to be better than Mrs. Charles Russell. 40 cents. Two-year, $1.00 each.

GLOIRE DES BELGES (H. T.)—Growth vigorous and free, flowering continuously until late in the season. buds oval, long and of elegant form with vivid colors of carmine and cocheineal. Fine for massing and a fine cut flower.

GOLDEN OPHelia—This is a sturdy, stiff-stemmed grower, with beautiful foliage, quite closely set, and glossy. The flower is of medium size from a beautifully formed bud of bright golden-yellow. Promise bloomer. 50 cents each. Two-year, $1.00 each.

GOLDEN SPRAY (H. T.)—Unique in habit and growth, it sending up long arching shoots which form great loose elegant sprays, every bud of which opens up in succession. The buds are very long, of deep Marechal Niel yellow, opening to almost single blooms of clear lemon-yellow. Awarded gold medal, National Rose Society of England.

GORGEOUS—Flowers large and full, exquisitely formed and produced in endless profusion. Deep orange-yellow and heavily veined with reddish-copper, the most charming and gorgeous coloring which has yet been introduced. The most striking Rose in existence.

HADLEY (H. T.)—In color it is a deep velvety-crimson, retaining its brilliancy at all seasons of the year. The variety is double and buds are well formed. The fragrance is excelled only by American Beauty. It is a strong, rapid grower, and the flowers are borne on long, stiff stems. It has proven itself under thorough trial to be an all-the-year-round forcing variety.

HOOSIER BEAUTY (H. T.)—We use description of E. G. Hill Co.: “If you need a more profitable red Rose than the one you are growing, ‘Hoosier Beauty’ is your variety. It is as fragrant as Richmond has more petals, a stiffer stem, a texture like velvet. In color, glowing crimson-scarlet, with darker shadings. The bud is of good length, ships well in the close-cut state, and opens into a magnificent bloom, quite dazzling in velvet brilliance. As soon as thoroughly established in the soil sends out long, stiff growths with a bud on every shoot.”

HENRIETTE (H. T.)—One of the finest in existence for bedding, garden and cut-flower purposes; blooms earlier on its first year; buds long and pointed. Color fiery orange-crimson, changing to soft coral-salmon. Very hardy. Free in habit.

KILLARNEY BRILLIANT (H. T.)—The introducers are to be congratulated 16 years after the advent of Killarney in giving us this delightful novelty which is undoubtedly the best of the Killarney type. Killarney Brilliant has the same habit of growth and the same freedom of bloom as its parent, while the flower is more double. The color is a very brilliant pink and varies like Killarney. In the garden, in bright weather is clear pink, and in dull weather almost crimson. Extra.

LADY PLYMOUTH (T.)—The color is a pearly, delicate but deep ivory-cream, faintly flushed, giving it a most piquant finish that is difficult to describe. Awarded gold medal National Rose Society of England, and silver medal at Crystal Palace Show, London.

LADY ROBERTS (T.)—The color is a rich golden-yellow, very free bloomer and a grand garden Rose.

LEGION (H. T.)—Bud, well shaped, globular; flower, large full, lasting cerise-red throughout, fragrant; foliage, large, glossy reddish green, of the flower, large, glossy reddish green. Originally named American Legion, but name changed because objected to by association of that name. 50 cents each. No two-year to offer.

LOS ANGELES (H. T.)—Los Angeles is, by all odds, one of the finest the past season. The growth is very vigorous, and produces a continuous succession of long-stemmed flowers of a luminous flame-pink toned with coral and shaded with translucent gold at the base of the petals. In richness of fragrance it equals in intensity the finest Marechal Niel. The buds are long and pointed and expand into a flower of mammoth proportions, while the beauty of form and ever increasing wealth of color is matched only by the incipient bud until the last petal drops. 40 cents each. Two-year, $1.00 each.

MADAME MARCEL DELANNEY (H. T.)—A surprising beauty of novelty raised by the introducers of the popular Los Angeles. It was created by the late Mrs. J. E. Mock, and has been honorably with the award of the Gold Medal of the Bagatelle Gardens at Paris, 1915. It is distinct and peculiar in color. The petals are large and shaded with hydrangea-pink. The flowers are very large, full and fragrant, perfect in form, and borne on rigid-stemmed canes. The growth is vigorous and very floriferous.

MADAME COLLETTE MARTINET (H. T.)—A vigorous grower of coppery-orange color. The color is very deep and clear, and holds well, which can be said of few yellow sorts. It is a nice grower, free in bloom, and those wanting a yellow different from "Ward" or "Sunburst" should try this one.
THE CREAM OF THE NEW ROSES—Continued

MADAME BUTTERFLY—(New.)—Is Hill's glorified sport of Ophelia. Seen and admired by thousands. All the color tones of Ophelia are intensified, making it a harmony of bright pink, apricot and gold. Ophelia ranks at the top in popularity and Madame Butterfly will surpass it. It averages more petals to the bloom; it produces more bloom to the plant because it makes more branches, everyone carrying a bud. The tight buds are a lovely shade of Indian oak, yellow at the base; they are unique for corsages and for low table decorations; the opening flowers are perfect in form and texture, clear and brilliant in color and of delicious fragrance. 40 cents. Two-year, $1.00 each.

MISS WILMOT (H. T.)—The most refined and charming Rose ever raised. There is an appealing sweetness about this most distinct variety that will please lovers of Roses all the world over. The color is practically a uniform soft sulphur-cream, with the faintest flush towards the edges. In shape and form this Rose is a model of perfection, every flower comes perfect and produced with a freedom that is marvelous. A wonderful garden Rose. Gold medal, N. R. S. 40 cents. No two-year to offer.

MRS. BRYCE ALLAN (H. T.)—Strong Rosa-rose perfume. Color carmine-rose. Flowers globular in form, very erect stems, deep green foliage.

MRS. CHARLES BELL (Piersson, 1918)—This new Rose will appeal to those who grow Roses out of doors. It may be described as a shell-pink Radiance, except that it is shell-pink. Mrs. Chas. Bell Red Radiance and Radiance offer a range of color that will be welcome. No finer garden Roses for America than these three.

MRS. CHARLES RUSSELL (H. T.)—This wonderful new American Rose has taken the country by storm. No other forcing Rose except "American Beauty" can compete with it when it comes to counting points. Stems three feet long stiff and surmounted by grand rosy-pink blooms of the largest size and build. 40c. No two-year to offer.

Ophelia.

MRS. CAMPBELL HALL (Tee)—Delicate creamy-buff, edged or suffused rosy-carmine. The center of the bloom is warm cerise coral-fawn. Very deliciously fragrant. Awarded gold medal, N. R. S. 50 cents each. No two-year to offer.

MRS. CURNOCK SAUNDAY (H. T.)—A vigorous grower, with bright green foliage. The well-shaped blooms carried erect on long stems, are sweetly scented. The color is a pleasing shade of pale blush-pink, a good garden Rose in commerce. 50 cents each. No two-year to offer.

MRS. HENRY WINNETT (H. T.)—This is a seedling raised by John H. Dunlap of Canada, and has the distinction of being the first seedling Rose of Canadian origin that has been offered in commerce. In color it is a bright shade of crimson, not so dark as Hadley, and not so light as Richmond. It is a color that pleases the retail grower and his patrons. The finest of all the red or crimson varieties. The buds are long and well formed. A superb red Rose. 40 cents. No two-year to offer.

MRS. HENRY MOISE (H. T.)—Bud very large, long pointed, flower very large, high center, double, fragrant, color flesh-cream ground with a sheen of bright rose, deeply impregnated and washed vermilion with clear vermilion veining on petals; very vigorous grower, bearing an abundance of bloom. 50 cents each. No two-year to offer.

MRS. JOHN COOK—White, suffused with delicate pink, describes the color of this strong-growing, big-flowered daughter of Ophelia. The color varies with the season; the flower of pink being more pronounced during cool weather, while the Rose is almost white during the long days of bright sunshine. In bud it is nicely formed, the mature flower opening cup-shaped but expanding fully to a large and finely-formed bloom. It is bigger and better in summer than White Killarney and, with its delicate pink in dark weather is a very charming color. 50c. No two-year to offer.

MRS. MACKELLAR (H. T.)—The glorious blooms make this an imposing Rose. A deep citron or delicate pure canary color. As the large blooms gracefully expand the guard petals charmingly reflex and become pearly primrose-white of great decorative beauty. Award of merit (unanimous), R. H. S., London.
**THE CREAM OF THE NEW ROSES—Concluded**

**NATIONAL EMBLEM (H. T.)**—Dark crimson, of perfect shape, habit and inflorescence; as a bedding, massing and cutting Rose it is unique. Buds long and pointed, opening to large, full, handsome flowers of great beauty, flowering freely and continuously.

**OPHELIA**—Salmon-flesh shaded with rose, large, and of perfect shape; of excellent habit; the flowers standing up well on long, stiff stems and produced in great profusion. Excellent for forcing and a fine decorative variety. Growth vigorous. Certainly a glorious Rose. Be sure to have “Ophelia” fixed in your memory.

**PILGRIM**—(New.) In color, a beautiful shade of bright rose-pink. The bud, which opens perfectly, is long and of ideal form. Pilgrim is a Rose of good substance and petalage, and at any stage of development is perfect in color and form of flower. Its pronounced tea fragrance will attract all Rose lovers. It is prolific and highly productive of first quality blooms. The stems are straight and strong. It is the pink Rose to grow. 30 cents. No two-year to offer.

**PREMIER**—This is the long-looking for deep Rose for the garden; a beauty, and one you will be pleased with. It is a very free bloomer, almost equal to the one-year-old. The color is bright and attractive. The growth is all that is to be desired, and altogether a wonderful Rose. 40 cents. No two-year to offer.

**RED RADIANCE (H. T.)**—All who know that grand Rose Radiance will welcome this red form of that great favorite. Radiance is a Rose that does well everywhere; a fine grower and free bloomer, and no prettier pink Rose grown. Red Radiance is its exact counterpart except that the color is a rich deep red.

**RICHTHOFEN**—Pure rich scarlet; very free and continuous flowering; splendid forcing.

**ROSE MARIE (H. T.)**—This is a grand Rose of the very highest merit. A rich red that has come to stay. Might best be described as a bright watermelon-red. Very desirable.

**TIPPERARY (H. T.)**—In color stands between Lady Hillington and Melody, showing an attractive shade of soft golden-yellow in the bud and half developed flower. Its freedom of flowering and its habit of growth make it one of the most desirable Roses of its color.

**W. C. GAUNT (H. T.)**—Of medium size, with pointed buds, with naturally reflexed guard petals of brilliant velvet vermillion, tipped scarlet. Stems rigid, habit branching, large oval beech-green foliage. Rich tea fragrance; very rich in color.

## The “Excelsior” List of Ever-Blooming Roses

New and Choice for Outdoor Planting or House Culture

Price, 20 cents each; any three of your own selection for 50 cents. Two-year plants, 40 cents each; three for $1.00.

For general planting, more especially in open ground, this class excels all others. One-year-old plants, such as we send by mail, bloom the first and each succeeding year from early spring until severe frosts. Two-year-old plants, of course, yield a greater profusion of flowers, owing to their size. The flowers are noted for their exquisite coloring and delightful fragrance; hardy everywhere in open ground with protection from litter, leaves, evergreen boughs or similar materials. Plant liberally of one-year-old Roses; the harvest of bloom they give the first year compensates for the trifling outlay. Anyone can succeed with them.

Polyantha, or Baby Roses

A class of miniature Roses derived from the Climbing Polyantha. They are of dwarf habit and bloom so freely as to cover the entire plant with bloom all through summer and fall. The plants are splendid for bedding, or as edgings for borders they are hardy. Let us tell you something about these miniature Roses. While Europe has appreciated these Roses for years, America is just beginning to wake up to the fact that they have come to stay. They are useful either pot grown or for bedding purposes or for hedge effect. 20 cents each; six for $1.00; two-year plants, 50 cents each; three for $1.25.

MADEMOISELLE CECILE BRUNNER—This is the popular Baby Pink Rose. It is also known as Sweetheart and Mignon. In the past year or two this Rose has fairly jumped into popularity. It always was a popular outdoor Rose on the Pacific Coast, but recently even in the middle West and everywhere in America they are planting it simply by thousands for cut flowers. It has become quite the rage. It makes a handsome miniature Rose, coming in sprays of three to five buds and combined in beautiful effect with so many other flowers in all kinds of floral work. It is a very prolific bloomer and if carefully protected in the winter should be a money-maker, both outdoors and under glass. The bud and flower are both handsome. Color, blush, shaded light salmon-pink; distinct and desirable.

MRS. W. H. CUTBUSH—Flowers the delicate pink of Dorothy Perkins.

PERLE d’OR—Coppery-orange, changing to fawn.

New Polyantha, or Baby Roses

Price 25 Cents Each; Two-Year Plants, 60 Cents.

BABY DOROTHY—This is a glorious Rose. Flowers resemble the Dorothy Perkins. Completely hides the plant with its bloom.

BABY ECHO—The best Polyantha produced. Color rosy-flesh color. Of splendid strong growth and freedom of bloom, which are of wonderful keeping qualities either on or off the plant. This is the improved Baby Tausendschoen. It has more substance and more color, and is the best of all Baby Roses for pot culture. Be sure and try this one.

BABY TAUSENDSCHOEN, or THOUSAND BEAUTIES—Its flowers are large, so much like Thousand Beauties that it has been christened Baby Thousand Beauties. It is a bush form of the Thousand Beauties, having all the charm of the variable coloring in its flowers that its parent has, being firm, white, delicately flushed pink, changing to deep rosy-carmine. A splendid Rose. Try it.

EDITH CAVEY—Bright crimson; white eye; very beautiful. One of the best new Baby Roses.

ETOILE LUISANTE or BABY HERRIOT—Just picture to yourself the Fairy or Sweetheart Rose ("Cecile Brunner"), colored up like the Daily Mail Rose ("Mme. Edouard Herriot"), only brighter and more brilliant than when that variety is at its best, and you will have some conception of the beauty of this little gem which on account of the similarity in color has been known among the cut flower trade as Baby Herriot. Its color is a shrimp-pink with intense, coppery-scarlet suffusion, the base of the petals golden-yellow which intensifies and lightens up its high colors. Plant is free growth and floriferous. We are certain that Baby Herriot will please everyone.

GEORGE ELGER—A lovely little golden-yellow Polyantha Rose, with a good admixture of Tea blood; like all of its class, it is free in growth free in bloom, with small, glossy foliage produced in profusion. The dainty little pointed yellow buds open into pretty little symmetrical Roses. Will prove a very popular corsage variety; is grown in quantity now for this purpose.

GUERRE AN AACHEN—Yellowish-rose colored with salmon-pink and red shadings; full, strong, free blooming and disease proof; erect and of moderate growth. Owing to the size and beauty of its flowers and its symmetrical growth, this variety is highly recommended for low, bright massing.

MLE. FRANCISQUE NAVIER—Dwarf Polyantha. Robust in growth, quite continuous in bloom, flowering in large trusses of single flowers. Color, velvety crimson, with large silver-white eye. Extremely showy.
New Polyantha, or Baby Roses—Concluded

Price, 25 Cents Each; Two-Year Old Plants, 60 Cents Each

ORSKLS—The showiest and prettiest of all the Baby Ramblers. This charming and dainty Rose is of beautiful rounded habit and is a huge bouquet of double, saffron-colored, perfectly formed flowers. It is a distinct showy center of pure white; florets not crowded, but of beautiful arrangement, making as a whole a charming combination that cannot be otherwise excelled. This lovely Rose, like a weed and the flowers are nearly "immortal" in their lasting qualities. Awarded gold medal.

MISS TOP, "Baby Doll"—This delightful little "Sweetheart" Rose is a wonder. The color is absolutely new, and quite startling in its brilliancy, golden-yellow with tips of cerise. The foliage is narrow, long and sharply pointed, a deep glossy green—a very beautiful setting for the lovely little "Baby Doll" being an even partenaire of delicious color.

"Famous" Rose Collection for Garden Planting

We guarantee that no better Twelve Roses for the Garden were ever offered than this "Famous" Collection to them; each, the entire twelve for $2.50. Two-year-old plants, 50 cents each; the entire twelve for $5.00.

ANTOINE RIVIOIRE—This is the famous Mrs. Taft Rose, the most fashionable Eastern markets. This Rose is in a class by itself. It is pronounced as having such substance of petal; color creamy-white with golden tints; a beauty and a wonder.

BESSIE VELLE—A Rose of transcendent beauty; one of the largest size; color pale-yellow with a delicate tinge of fawn.

ETOILE DE FRANCE—For the best red garden Rose it lies between this one, Rhea Reid and Helen Gould. Some say one and some say the other.

ETOILE DE LYON—Still the best large golden-yellow Rose.

HELEN GOULD—A rich red Rose that is a great bloomer; the shade of red has been described best as a watermelon-red, elegant.

HELEN GOOD (The Beauty Cochet)—What the intrepid Mrs. Taft is to the Rambler, so the Cochet is to the polyantha. A new introduction after two years' trial in the garden. We pronounce it as good if not better than any Rose for the garden ever seen before. We bought the entire stock of this Rose, paying $1,000 for two plants, this being by far the highest recorded price ever paid for any polyantha. It is a delicate Rose suffused with pink, each petal edged deeper, very chaste and beautiful. The color, with its immense size and exquisitely formed, makes it without question the greatest Tea Rose ever introduced, and we are proud to have brought it out.

KLAUSIN AUGUSTA—A grand white garden Rose that has stood the test of time. Full and double, fine buds and flowers.

MAURICE COCHET (The Queen of all Garden Roses)—Such a beauty as it is possessed by this variety is well-nigh marvelous, and cannot be seen in any other Rose we know of. The buds are beautiful almost all the time; the flowers elegantly pointed; as they expand they show great depth and richness sometimes measuring two and a half inches in diameter; they close up when open, extra large, perfectly double and of splendid substance. Small pot plants will in the open ground quickly make large, strong bushes and produce great numbers of perfect flowers that are enchanting in fragrance and delicate brightness. The color is rich, clear pink, changing to a silvery rose. As we see it, one good Rose like any of the Cochet Roses is worth a whole collection of poor ones.

PRESIDENT TAFT (Cook & Brou., 1908)—This Rose was raised in Cincinnati, the home of President Taft, and let us say right here, while some of you may not agree with Taft, but we are sure every American will admire and respect this beautiful Rose.

WHITE MAMAN COCHET (No Finer Rose Than This)—This Rose attracted our attention from the very first time we ever saw it in flower. It is of the largest size, and as you will notice, the flower is built up, or rounded and very double. The color is a pure snow-white. Sometimes outdoors it is tinged Pink, which only adds to its great beauty. Not only is this Rose a beauty, but in the richness and in the immense size of its buds and flowers—indeed, nothing in the Tea family approaches it in beauty. The Rose is full, and very double.

WM. R. SMITH—This Rose has several names, such as Charles Dingee, Jeanette Heller, Maidens Blush, etc., but "Sweetheart" is the common name. It has no superior as a garden Rose.

PAUL'S CARMINE PILLAR—The earliest of the Climbing Roses to come into flower. Color a rich rosy-carmine with white eye. 25 cents. Two-year plants, 60 cents.

RED DOROTHY PERKINS, or EXCELSA—The defects of Climbing Rambler are its unsightly foliage in unseasonable weather and its defoliation by insects; the infusion of Wichuraiana blood assures an ornamental climber which is nearly evergreen and this will assure this lovely crimson-scarlet pillar Rose a place in every American garden, for it is quite hardy in addition to all its other fine points. The flowers are very double produced in large trusses of thirty to forty, and almost every eye on a shoot produces large clusters of flowers. The color is intense crimson-maroon the tips of the petals tinged with scarlet. The finest of all red Climbing Roses. 25c. Two-year plants, 60 cents.

The plant is a strong grower, with large, glossy, bronze-green foliage. 25 cents. Two-year plants, 60 cents.

TAUSENDSCHOEN, or THOUSAND BEAUTIES—A Climbing Rose that comes to us from Germany. BEAUTIFUL CANNAS

Cannas are called the poor man's Orchid because one may possess a perfect riot of color in his yard or garden for the minimum of both outlay and labor. They grow rapidly and bloom luxuriantly throughout a long season, requiring merely ordinary hoeing and weeding, and they always respond to plenty of water. Soak the ground thoroughly. Planted in beds of any formal shape, in rows or in front of porches and foundation walls, their rich, tropical foliage and bright bloom will repay their care and the insignificant trouble of winter storage.

35 cents each; $3.50 per dozen; $30.00 per hundred.

KING HUMBERT—In this grand Italian Canna we have a combination of the highest type of flower with the finest bronze foliage. Its flowers, which under ordinary cultivation will measure six inches in diameter, and which are produced in heavy trusses of gigantic size, are of a brilliant orange-scarlet, with bright red markings, while the foliage is broad and massive and of a rich coppery bronze with brownish green markings. Five feet.

THE PRESIDENT—Four feet. This Canna is superior to any other red variety in the quality and also the quantity of bloom. Color rich glowing scarlet and the immense firm flowers are produced on strong erect stalks well above the large, rich green foliage. The foliage is entirely free from disease.

CARNATIONS THE DIVINE FLOWER PINKS

For beauty of flower and color, ease of culture, certainty and freedom of bloom, together with exquisite fragrance, this is well called the "Divine Flower." Plants in the open ground or in pots quickly make large specimens, and when brought indoors in the fall produce an abundance of flowers throughout the entire winter. Carnation blooms are expensive; don't buy them—grow them yourself. Pinch the plant back frequently during the summer season. In the fall bring indoors, place in a four or five-inch pot, keep in a temperature of forty or fifty degrees at night, and they will yield an immense number of flowers with splendid stems, as fine as those sold by florists. If not pinched in they will bloom profusely during the summer. We offer the finest varieties in existence. Your order is incomplete without some Carnations.

The majority of Chrysanthemums are hardy south of the Ohio river and many are hardy in the Northern states, as far as the plant is concerned, but they must flower before early frosts to be of service. The varieties offered below generally flower from the last of August to the fifteenth of October.

Early Large-Flowering Chrysanthemums

So many persons have asked for varieties of Chrysanthemums that would flower before frost comes in the fall. We here offer the very best early "Mums," so you can see them flower in the garden. Price, 20 cents each; the six for $1.00.

ADVANCE—The earliest flowering large white; has been in bloom in July.
EARLY SNOW—The earliest of all white "Mums." Superb.

Hardy Pompon Chrysanthemums

These beautiful varieties are again very popular for outdoor bedding purposes. They are quite hardy, and with but a slight covering of leaves or coarse stable litter during the winter will take care of themselves after once planted, and produce an abundant, almost lavish, profusion of bloom; and the plants lend a coloration to the garden just at a time when other plants have been destroyed by frost and are looking their worst. Frost does not materially affect the flowering, and it will frequently happen that an armful of flowers can be cut after a sharp frost.

Price, 20 cents each; any three for 50 cents; the set of eleven for $1.75.
BABY—Deep golden-yellow; covers the plant.
DIANA—Snow-white; very free.

OUR GRAND GARDEN DAHLIAS

No garden is complete without a show of these brilliant and stately autumn flowers, and nothing gives greater return for so little money and care. We offer dry bulbs or tubers, but if stock of these becomes exhausted, will send started plants. We grow and sell fifteen acres of Dahlias each year.

Cactus Dahlias

So-called from their resemblance to Cactus flowers. They are characterized by long, narrow, pointed, tubular and twisted petals of graded lengths, giving the flowers a striking and attractive appearance. Grand for cut flowers.

Except where noted, 30c each; three for 75c. The entire set of 10 Cactus Dahlias, costing $5.20, for $4.50.

AMOS PERRY—The best bright scarlet Cactus to date. Color purest flaming scarlet, with long, narrow, twisted petals of irregular formation. The blooms are borne well above the foliage in the utmost profusion. Certainly a beauty.

AURORA—Very free flowering; reddish-apricot, suffused with flesh-pink, shading lighter at the tips. 50 cents.

CHARLES CLAYTON—The strongest words of praise are not extravagant when applied to this wonderful new Cactus. It is the ideal in color, form, length of stem and general good habits, beyond which it would seem little could be hoped for. The color is a most intense crimson, so vivid as to dazzle the eye; superb.

COUNTESS OF LONSDALE—For perfection of bloom, erectness of stem, abundance of flower, this variety has never yet been equalled. On top of the plants we have counted over 150 perfect blooms on one plant. Is there any other garden flower that can equal it. Color is a rich salmon-pink, tinted apricot.

No Dahlia blooms freer, no Dahlia is as pretty as Springfield. It lasts longer cut than any Dahlia we know.

Decorative Dahlias

These come next to the Cactus as a cut flower. Are also very showy in the garden, being unusually free bloomers. Are more formal in make-up than the Cactus Dahlias, but not so formal as the show varieties. A happy medium between the two.

This is an entirely new race of Single Dahlias. We consider today that the new Century Dahlias occupy first place where beauty of coloring and artistic effect is desired. Owing to their immense size, long stems, graceful carriage, combined with their purity of color, or the blendings of colors, shades and tints, they entirely outclass all other Dahlias for cut flowers. There are no plants grown that are more desirable for the house than the following fine decorative Ferns. They are easily grown, free from insects and disease, and thrive well in the ordinary temperature of the living room. See that the plants have plenty of drainage and are kept well watered; never let dry out for any length of time. Everyone of these Nephrolepis Ferns is entirely distinct in every way. That we are headquarters for Ferns is evidenced by the choice assortment that we offer. No other firm offers so many distinct and choice varieties. Try us for Ferns.

The "Teddy Junior Fern"
Nephrolepis Teddy Junior
"Teddy Junior," the Fern for every household. This grand Fern was introduced recently by G. & R. The fronds are divided uniformly from base to tip; they droop just enough to make a shapely, graceful plant, permitting it to finish with a fine full center and perfect symmetrical spread. The pinnae are distinctly undulated, giving the fronds an attractive wavy appearance, which adds materially to their charming decorative effect. "Teddy Junior" will produce about four times more fronds than an ordinary fern ever having the fronds finishing with fifty to sixty fronds in a four-inch pot.
Fine young plants, 25 cents; strong plants, 75 cents.

The "Roosevelt Fern"
Nephrolepis Roosevelt
It is our good fortune and great pleasure to offer this wonderful new Fern, having introduced it in 1910. In this short time it stands second in popularity of all the Ferns, and will soon be more popular than even the old favorite Boston Fern. In general characteristics it resembles the well-known Boston Fern, but it will sweep that Fern from the boards for two reasons; it produces many more fronds than the Boston; therefore making a bushier, handsomer plant in the greenhouse. The fronds are beautifully undulated, giving the "Roosevelt" a pronounced wavy effect seen in no other Fern; as the ages this effect becomes quite a distinct feature. A charming and most notable variety.
Fine young plants, 25 cents each; strong plants, 75 cents.

New Fern Liberty
This is our own production. In the past we have sent out Baby's Breath, Teddy Junior and Roosevelt, the three most popular Ferns today, acknowledged by all plant men and flower lovers, and now we add another one to the galaxy, "Liberty," no doubt the best of the three choice for its finely divided pinnae that give them a very beautiful appearance, while the whole plant is overlaid with a bluish cast that makes of it a very striking object. Wonderfully beautiful, different from all other Ferns. First time offered.
Fine young plants, 35 cents each; strong plants, $1.00 each. Be sure and try this beautiful Fern.

An immense, fluffy flower of pure glistening white, showing its beautiful golden-yellow center very prominently, which lends an additional charm to this most beautiful flower. 75 cents each.

SHERLOCK HOLMES—Beautiful Holland Peony-flowered Dahlia. An ideal flower, possessing remarkable qualities; flowers beautifully formed and of excellent type. A beautiful shade of mauve. $1.00 each.

VARIEGATED LISZT—Dark oriental red, with yellow tips and markings. A superior variety for decorations, especially where a bronzy effect is wanted. 30 cents each.

BEAUTIFUL HOUSE FERNS

The "Newport Fern"
Nephrolepis Scotti
Of much dwarfer and bushier growth than the Boston Fern. The fronds droop gracefully and are not as long and heavy as the Boston. It is a rapid grower; and to it in all stages of growth from a runner in the bench to a 14-inch pot specimen will convince you that it will be in great demand as a house Fern. This has always been a favorite variety. Fine young plants, 30 cents; strong plants, 75 cents.

The "Parlor Fern"
Nephrolepis Whitmanii Compacta
This is a condensed form of the "Ostrich Plume" Fern, with valuable characteristics added which are not evident in the parent, the pinnae subdividing, making miniature fronds which are superimposed on each other, resulting in two or three fronds condensed into one. Graceful beyond description.
Fine young plants, 35 cents; strong plants, 75 cents.

The "Philadelphia Lace Fern"
Nephrolepis Elegansfima
The small size pinnae, or leaflets, are subdivided into perfect miniature fronds the side pinnae stand at right angles to the midrib of the fronds, on edge instead of flat, giving both sides of the main frond the same beautiful appearance. It is impossible to conceive of the beauty and grace of this wonderful Fern from a description. Fine young plants, 35 cents; strong plants, 75 cents.

The "Big Four" Fern
Nephrolepis Splendida
This is the most wonderful Fern of them all; it originated with G. & R. and is now offered for the first time. It combines the best qualities of the four most popular sorts. It has the grace of a "Ostrich Plume," the wavy effect of "Roosevelt," the fluffy effect of an "Ostrich Plume," and the uniqueness of a "Fish Tail." Some fronds will be straight "Boston," others "Elegantissima," others "Teddy Junior," in others the ends of the pinnae will be the feathered "Ostrich Plume," while in others the ends of the pinnae will be genuinely "Fish Tail." Then again some fronds will have in a marked degree all of these desirable traits, forming a combination without parallel among Ferns. It will make a unique name of "Big Four Fern." Everyone who sees it goes 'daisy' about it. This is without question the most splendid of all the Nephrolepis. Be sure and try it. Fine young plants, 25 cents each; strong plants, 75 cents.
Beautiful House Ferns—Concluded

The "Boston Fern"

Nephrolepis Bostoniensis.

In the vicinity of Boston, no other plant is so extensively used as this graceful Nephrolepis, which differs from the ordinary Sword Fern in having much longer fronds, which frequently attain a length of six feet. These arch and droop over very gracefully, on account of which it is frequently called the Fountain Fern. This drooping habit makes it an excellent plant to grow as a single specimen on a table or pedestal. This Fern should not be compared with the Ostrich Plume Fern, as they are of an entirely different growth. Fine young plants, 25 cents; strong plants, 75 cents.

The "Wannamaker Fern"

Nephrolepis John Wannamaker

A new Fern of wonderful beauty. Long, narrow, gracefully drooping fronds. It is not so compact as Schollzeli, and, therefore, is a very airy and graceful Fern, and very durable in the house. A rapid grower; quite distinct from other Ferns. Fine young plants, 30 cents; strong plants, 75 cents.

The "Ostrich Plume Fern"

Nephrolepis Whitmanii

A great Fern. In fact, it is a plant that appeals to everyone, and on that account will prove a much more valuable and profitable plant than other Ferns of this class. Everyone who has seen it is charmed with it. As someone has expressed it, "There is no other Fern like the Ostrich Plume Fern in cultivation. In decorative effect it far out-distantes the original variety that there is positively no comparison to be made. We consider it the most valuable novelty that has been introduced in many, many years." It has taken gold medals wherever shown. Fine young plants, 55 cents; strong plants, 50 cents.

Fern Smithii

A new type of the Ostrich Plume family. The frond is very compact and the pinnae are finely serrated, giving to the appearance of a strong feathery plume. Fine young plants, 50 cents each. No large size to offer.

The "Old Original Sword Fern"

Nephrolepis Exaltata

This is the "old original Sword Fern," the "daddy" of them all, the one plant from which all the Nephrolepis we offer spring. It is entirely different from any of its progeny, having narrow fronds that are long and of very erect growth. For this reason it is more largely used as a centerpiece in vases. Fine young plants, 25 cents; strong plants, 75 cents. than are any of its descendants. Fine young plants, 25 cents; strong plants, 75 cents.

The "Crested Fern"

Nephrolepis Schollzeli

The fronds are crested and stand erect, with a graceful arch, forming a plant of ideal shape, and they never break down, giving the plant a raged appearance, as is so often the case with other plumed forms; furthermore, the loose, elegant arrangement of the fronds, allowing a free circulation of air through the foliage, prevents the center of even the largest specimen from becoming defective or yellow. Fine young plants, 25 cents each; large plants, 50 cents.

The "Baby's Breath Fern"

Nephrolepis Goodii

This has the finest foliage of all the Ferns. It is so delicate that a lady on seeing it exclaimed, "Call it the Baby's Breath Fern, as it is so dainty in texture that a baby's breath would set its fluffy foliage in motion." The fronds are very fine and filmy, on which account it has been called by some the Lace Fern. It is an improved variety, and the best of its type. Nothing is daintier or more exquisite than well grown specimens in any size. Fine young plants, 50 cents; strong plants, $1.00.

The "Fluffy Ruffles Fern"

Nephrolepis Superbissima

This new Fern is quite different from all other Ferns. Its distinguishing characteristics are its dark green foliage, darker than any other Fern, its dense growth, much more compact, and its irregular shaped fronds, which give it the name of "Fluffy Ruffles Fern." The fronds are very heavily imbricated, the pinnae overlapping, and so formed as to resemble miniature Ferns, giving it the appearance of a Fern within a Fern. The plant is very sturdy in its habit. Fine young plants, 75 cents. No large size to offer.

The Easter Greeting, or Ever-Blooming Set

PRICE, 40 CENTS EACH

EASTER GREETING—Planted out as a bedding plant it will bloom continually until late in the fall. It will prove the forerunner of a new race of ever-blooming kinds, as it rivals the Orchids in beauty. This new species is the earliest of all Pelargoniums, with enormous florets and clusters, having light green foliage and of dwarf, robust growth. It blooms from March until fall. Florets fiery amaranth-red, with five large, regular shaped spots. The first and only kind to bloom as well bedded out as in pots, and to do so all summer.

GARDENER'S JOY—The ground color is apple-blossom pink, the two upper petals have blotches of carbon-brown, the florets are three and one-half inches in diameter and are joined to enormous clusters which rise above the beautiful foliage and remind one of a Rhododendron cluster. It is of a half dwarf nature and very sturdy. On account of its rapid, luxuriant growth it is a very profitable market variety.
Pelargonium, or Lady Washington Geraniums—Concluded

The wonderful improvements made during recent years in these old-fashioned hardy plants has brought them into renewed popularity. These gorgeous flowers, which rival the finest Roses in size, form and color, are produced in great abundance. After once being planted they require little care and attention, thrive anywhere, and are absolutely hardy even in the coldest climates; each year coming from them into greater beauty, growing more and more abundant. They are not troubled with insect pests. Try some of our fine Peonies, and see what grand flowers they are. Get it out of your head that there are only Red, White and Pink Peonies to illustrate at flowering time. People who visit florist will say, "I want pink and white Peonies." TENDER PLANTS

PLANTS IN THIS LIST WILL NOT STAND THE FROST

Abelia Grandiflora
This is one of the prettiest of all shrubs. Has small shiny leaves like those of azalea. Bears its bell-shaped pure white flowers in the greatest profusion all summer long, deliciously fragrant. Hardy south of Kentucky. Much sought after where it is known. We would advise our customers in the South to plant this shrub for hedges. 30c each; $2.25 per hundred.

Asparagus Plammosus Nanus
The Lace Fern
This graceful clumper has to a great extent taken the place of ferns once popular. Smilax in all fine decoration. It possesses the advantage of being much more graceful—its foliage being finer than that of the most delicate Fern—and it will last for weeks after being cut, the whole plant being of a bright, cheerful green. Excellent house plants succeeding. Only about any competition; by proper care it can be grown as a house plant for the winter. 15 cents each for fine plants; large, strong plants, 50 cents each.

Asparagus Sprengeri
The Emerald Feather Fern
A most desirable species, especially useful to grow as house plants or for use in hanging baskets for plantings in vases or frames. Fronds are frequently four feet long, of a rich shade of green, and most useful for hanging baskets if planted the first week of April. Very easy to cultivate. 50c per 100; $5.00 per 1000.

Flowering Begonias
These Begonias are fine for house culture, as all will flower during the hot days of summer. Price, twenty-five cents each, 50 cents each; 100 cents per dollar.

PICTA ROSEA—Bright, silvery-pink flowers. Extra fine.

PICTA ALCUTA—Long, pointed, slender leaves, thickly veined; foliage dark red; flowers golden-yellow; lovely pink flowers.

ARGENTEA GUTATA—Lovely green foliage, with silver markings.

CORNALLINE LUCERNE, the Wonderful New Flowering Begonia—This new Begonia has simply taken everybody by surprise. I have had it in my garden for three years, and not a single lady or gardener who has seen our greenhouse this past spring that did not purchase this Begonia. I do not think that I have had it in flower. It certainly is a wonder. The blooms last from a month to six weeks, and are borne in immense clusters, almost all at one time. The color is a bright coral-red, changing to a delicate pink. It is past the power of speech to describe it. A great flower. 3 for $2.00.

NEW GIANT COLEUS, Christmas Gem
(Brilliance, or Dr. Ross)
Leaves immense, eight to twelve inches long, looks like a giant coleus plant. Colored scarlet, red, coral. Cannot be excelled as a pot plant. The name aptly describes the appearance of this variety, which belongs to the great Coleus family. Leaves growing from two to three feet high, with leaves often nine to ten inches long, which are of bright carmine, shading off to a deep maroon, the margin being yellow and green, the whole leaf having a rich velvety luster. 25c each; three for 65c.

THE WONDERFUL NEW COLEUS, Trailing Queen and Trailing Beauty
These Coleus are an entirely new break, as no one ever thought before of growing them in the pot culture. HARDY DECIDUOUS SHRUBS

Whether planted individually or collectively Shrubs are an important feature in the adornment of any yard. The rich green of the summer foliage plays a greater part in landscape effect than is often realized. Would advise planting liberally of Shrubs.

The Ever-Blooming Butterfly Bush

Buddleya Variabilis Magnifica (Butterfly Bush). It was a matter of some thought before this highly desirable plant was finally christened with the common English name by which it is known. Seventy years ago there were imported from Europe some plant novelties and this one was among them. They were received with enthusiasm for a season and were charmed with its beauty, ease of culture and free flowering habit. The name Butterfly Bush was applied to it because it seems to attract butterflies in large numbers. One notices that it is not alone the common little yellow species of butterfly, but also the large and gorgeous colored butterflies which have a marked habit of feeding on it with brilliancy of color. This shrub from a young plant set out either in the spring or fall, will mat-ture to full size the first season, producing a handsome bush, which the first year often maintains a height of four feet. It produces long, grace-

ful stems, which terminate in tapering panicles of beautiful lilac-colored flowers that are of miniature size and borne by the hundred on a flower head which is frequently ten inches long. A single plant the first season will throw out as many as fifty flower spikes, which increase greatly in number during the second and third years. After planting, it generally commences to flower in June and continues each season until severe frosts nip it. The foliage and blooms are exceedingly fine. The shrub is rather semi-hardy. Spirea (Meadow Sweet)
These are beautiful shrubs of the easiest culture. Their blooming extends over a period of three months. One-year, 25 cents each; strong two-year-old plants, 50 cents each.

ANTHONY WATERS—This beautiful gem makes a low, compact bush, and is covered nearly the whole growing season with large umbels of deep crimson flowers which measure nearly a foot across. They are borne in close clusters high up, it begins to bloom, and thereafter is seldom out of flower. As a pot plant or for growing in the open ground, nothing can equal it.

VAN HOUTTEI (Bridal Wreath)—Without doubt the very finest of all shrubs. With us in May and early June the plant is completely covered with a mass of large white flowers presenting a beautiful appearance. Named the "Bridal Wreath" on account of its long graceful sprays of pure white.

Snowball—Viburnum

Handsome, plicated leaves with globular heads of pure white flowers, early in June. No shrub is prettier. 60 cents.

Snowberry
(Symphoricarpos Racemosus.) An excellent shrub for massing under trees and in shaded places, as well as in full sunlight. Very ornamental in the Fall; has a small white or pinkish flower, succeeded by showy white berries. 50 cents each.

A slower grower than the Privets, but needs no trimming and is a feast for the eye when full grown. One-year plants, 35 cents each; $1.00 per dozen; $10.00 per 100, by express only.

CALIFORNIA PRIVET OVALIFOLIUM—This makes when pruned a very formal hedge, will grow almost anywhere, thriving where other plants refuse to grow. 18 to 24 inches, 20 cents each; $2.00 per dozen; $25.00 per hundred.

Melrosoine

Many exasperated rose-lovers, seeing the best blooms of their pet roses destroyed by this boiler-plate bug, have wished death to him and all his family. When sprayed with MELROSOINE he dies. This definite specific for Rose-Bug is the outcome of many years of patient investigation by a professional gardener. Keeps indefinitely. It should be on hand in every garden as insurance against the ravages of the Rose-Bug. A small sum per plant expended for Melrosoine will protect them against this pest, and will also kill minor insects.
